

Tips for Kids

# Rail Safety

- **Stop, look and listen for trains** - whether you are walking or cycling.
- **Put away phones, tablets and headphones.** They can stop you from hearing or seeing a train.
- **Keep off railway tracks, yards, tunnels and bridges.** Be safe. Don't trespass.
- **Only cross at marked crossings.** A short cut is not worth the risk of getting hurt.
- **Obey railroad signs, signals and lights.** They are there to keep you safe.
- **Never try to outrun a train!** Trains can be very quiet and fast.
